TUESDAY, JUNE 13, 1882.

APPROACHING ELECTIONS.

States and Territories hold elections this year as follows: Alabama, Kentucky, Tennessee and Utah in August; Arkansas, Maine and Vermont, in September; Georgia, Indiana, Iowa, Ohio and West Virginia, in October; California, Colorado, Connecticut, Delaware, Florida, Illinois, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Texas, Virginia, Wisconsin, Arizona, Dakota, Iowa, Montana, New Mexico, Washington and Wyoming, in November. All except Iowa, Mississippi, Ohio, Pennsylvania, Michigan and Rhode Island elect Legislatures; Kentucky elects a Clerk of the Court of Appeals in August. United States Senators are to be chosen in twenty-six States, who will take their seats March 4th, 1883.

General Logan's Education Bill.

General Logan appeared before the Committee on Education and Labor Friday and made an argument in favor of his bill directing an appropriation of a portion of the internal revenue receipts from the tax on whisky for the benefit of a national school system. He reviewed the points made in his speech in the Senate upon the introduction of the bill, and presented some special points for the consideration of the Committee. He asked for an early report upon the bill. A vote taken this morning showed three of the four members present favored the measure. There will undoubtedly be a majority report in favor of the bill, and it will probably be presented to the Senate this week, and Senator Blair, Chairman of the Committee has a speech prepared upon the subject, which he expects to deliver this Tuesday. Senator Logan is confident that if the bill is reported this week, he will be able to pass it through the Senate this session.

Hon. H. F. Page will not be a candidate for Governor at the approaching California Republican State Convention. He has many letters urging him to become a candidate, but he emphatically declines; as he desires to be a candidate for re-election to the House of Representatives from the Second Congressional District. Mr. Page feels honored in the preference in his behalf; but he insists in pursuing the course marked out as above.

A Portland dispatch states that 1,800 is the average Republican majority on the State ticket. Mr. George will not have less than 3,300, the largest majority ever given a candidate in Oregon. Moody, for Governor, will have about 1,000 less. The Republicans have the Legislature by a certain majority of ten, which may be increased by thirteen.

Announcement is made that a new telegraph company, with a capital of \$21,000,000, has been organized; that the work has actually begun on its lines in the East, and that they are to be pushed rapidly West, connecting all the principal cities. In a short time we shall hear that Jay Gould has gobbled up the new company.

A correspondent of the Eureka Sentinel wants Samuel M. Wilson, the San Francisco lawyer, to be the next Democratic candidate for Vice President. The Pacific Coast Republicans will be willing to pit Gen John F. Miller against Mr. Wilson.

The Senate Committee on Postoffices and post roads has been considering the propriety and advisability of reducing the postage on letters to two cents, and on newspapers and other printed matter to one-half the present rates.

It is reported that Senator Miller may be the Republican candidate for Governor of California. It is further stated that he will accept the nomination if unanimously tendered him.

A bill has been introduced in the Spain House of Deputies providing for the immediate abolition of slavery in Cuba and granting the slaves civil rights.

The Postoffice Committee will probably report in favor of a postal card with flexible flap to conceal the message, to take the place of the present card.

Guiteau has selected as his spiritual adviser the Rev. W. W. Hicks, a Presbyterian minister of Washington, who will make daily calls at the jail.

Ex-Vice President Wheeler declines the appointment on the Tariff Commission, for the reason that his health will not permit the task.

INTERSTATE COMMERCE. Report of the House Committee on This Important Subject.

Townsend, of Ohio, of the Committee on Commerce, has prepared a report upon the subject of inter-State commerce which he will submit to the House as the result of the Committee's deliberation for two months past. It has selected from a large number of bills the one introduced by Mr. Townsend and adopted it. The report says: The Committee has considered thirteen bills and resolutions referred to it, half of which provided for statutory regulations upon railroads directly, the other half for the formation of a commission which should have control of the subject. The interests to be considered are enormous. There are over 100,000 miles of railroad in the United States, representing investments of \$2,500,000,000, which in 1880 carried 250,000,000 tons of freight, and gave employment to 410,225 persons. The interests affected by these roads were so diverse that it would be impossible to impose regulations upon them which would do justice to all parties supplying the ocean carrying trade. Nearly all routes are brought into direct and violent competition with Canadian roads, which are unhampered by any legislation. Consequently, the question before the Committee was very far-reaching in its effects, and any legislation which prescribed unalterably for the government of these roads, or the transaction of any business was dangerous. No set of laws could possibly meet the complications which were presented. The report speaks of Reagan's Inter-State Commerce bill as among the most radical of those proposing direct regulations for governing the roads, and says that its adoption would work great harm to the shipping interest of the country. Under it, no fixed rates could be mentioned.

The report then recommends the passing of the bill as amended. It provides for a Commission of three men, to be selected for their ability, to work with salaries at the rate of \$7,500 a year. They are to be under the control of the Secretary of the Interior. Their business will be to collect testimony in regard to high rates, overcharges and discrimination, and to submit them to Congress, and to collect facts in regard to the roads by which Congress may be enabled to legislate intelligently. It provides that any and either of the Commissioners shall have power in any investigation to summon witnesses, administer oaths, take testimony and direct the production of books and papers and contracts relating to the subject of complaint. All Judges of the United States District Courts and Circuit Courts are directed, either in or out of term time, to compel the attendance of witnesses before the Commission. The bill further provides that the Board shall have power to call on common carriers for reports of all rates and charges, and shall report to Congress all cases of excessive rates and charges and discrimination that may come within its knowledge. The Commission is to be appointed by the President, by and with the advice and consent of the Senate, and is to hold office for five years.

Terrible Dearth in an Illinois County.

A dispatch from Danville, Illinois, dated the 10th, conveys the annexed distressing news:

Reports from Patrick county say that 5,000 persons are starving in that county on account of the drought. Subscriptions have been taken up, but not enough have been taken up to relieve them. Women and children are begging for bread. Women had walked twelve miles in some cases, bringing infants in their arms, begging for a little corn or flour. A wagon load of shelled corn, which arrived, was at once surrounded by an emaciated crowd, all fighting eagerly for the handful of precious grain, which had been brought them. Some have died, others are dying in remote portions of the country. The suffering is not only among the humbler class but well-to-do farmers, who have heretofore never known want, are begging for bread for their starving families. Relief has started out from Danville and will travel all night, and it is hoped will reach the sufferers in time.

Comparing Expenses.

One year ago Hunt, then Secretary of the Navy, attended the commencement of the Naval Academy at Annapolis. He went there on the Government steamer Tallapoosa, having with him a number of ladies. The expense of the trip to the Government was \$2,000, the trip occupying in all four days. On Tuesday, Secretary Chandler went to Annapolis on the same duty. He went on the cars and unattended. The total expense of his trip was \$2. Chandler declined the offer of a Government vessel, which was tendered him by his commanders.

The Public Domain.

According to Commissioner McFarland, of the General Land Office, a larger amount of public lands will have been disposed during the year ending June 30, 1882, than during any other year since the establishment of the Land Office.

PIOCHE. A Camp with the Usual Romantic History.

[Correspondence of Salt Lake Tribune.] The camp has had a romantic history, but of its 7,500 people 7,000 are now gone; the mines and mills are idle; and it is enough to give one the blues. Of its story many of your readers know more than I do. It can be seen, town and mines, some miles away, perched on the northern slope of a quartzite mountain spur, which is capped with black lime, and dry as a powder horn. General Connor brought in water from the range of which the Pioche range is a spur. The Raymond and Ely has produced chiefly from a pay chute 200 feet long and extending only to the 900 level, \$13,000,000; the Meadow Valley has produced \$8,000,000; and other mines perhaps \$2,000,000. The croppings are said to have been discovered and located by Mormons, and to have been relocated by Connor's soldiers, after overruling the Indians who drove away the Mormons. It was men from White Pine and Pahranagat, however, who in 1869 first made it of account. Uncle Billy Raymond, in debt at Pahranagat \$70,000 or \$80,000, brought a five-stamp mill to Ballionville, bought the Burke ground, upon which and other ground the Raymond and Ely Company was ultimately organized. It is said that the Bank of California at one time offered him \$3,200,000 for 16,000 shares of the company stock (total shares then 30,000). He declined (it was then selling at \$180 and paying \$7 a share in dividends monthly), and ultimately packed his blankets out of the camp, as he had packed them in. But he has not lost heart, and still expects to recuperate his fortunes at Pahranagat or in Arizona. Such is your genuine prospector, now a millionaire, now a pauper, always with a heart equal to any fate.

GOOD MEN WANTED.

[Carson Tribune.] All the Republican party needs to ensure its success next November is a ticket made of good men. This State is naturally Republican and there will be no difficulty in electing a full corps of officers if men are put up who will command the respect of the voters. To secure such a ticket trickery and jobs must be done away with. If these are resorted to, defeat will surely follow. The State Convention should remember that it is face to face with the fact that the Democrats won the last election, and that the prestige thus gained is good political capital. The aim should be to get good, honest men for candidates. Who of the present officers have been faithful to their trust, honest and fearless in the discharge of duty? All such deserve re-nomination. Their faithfulness will make them even more popular than they were four years ago. Canvass the situation, present the best men and success will perch upon our banners next Fall.

ORGANIZATION AND HARMONY.

[Lander Free Press.] It was conceded by a large number of Republicans that Oregon was very doubtful this year, but the victory of Monday has swept that doubt away, together with all doubt as to which party will win in Nevada next November. Of course there is some hard work before the Republican party of Nevada between now and the day of election, but with a ticket composed of first-class men, they can carry the State without any trouble. What is needed and most is thorough organization and unity of action. Without this no fight was ever won. With it and an acceptable ticket, Republicans can rest assured that our State will follow in the footsteps of Oregon.

Report Accompanying the River and Harbor Bill.

Representative Page, in his report accompanying the River and Harbor bill, says:

The bill deals liberally with all such works as will largely and generally facilitate the commerce of the Nation by opening the great water ways of the country to free navigation. The Committee believe that at no time in the history of our Government have the people so unanimously demanded of Congress liberal appropriations for rivers and harbors; that at no time in its history has any United States Treasury been in such a condition to warrant large expenditure in this direction for the public good, and that it is of infinite importance for the protection of the public from the undue exactions of railroad companies that the great natural highways of commerce, the rivers of the country, shall be placed in the best condition to compete with them. The Committee believe it is the desire of the people, rather than reduce the taxes upon the luxuries of life, as has been contemplated by this House, that relief be given to them by a large appropriation for internal improvements; that the surplus revenues shall be expended for the benefit of such sections most in need of such improvements, so that the long neglected industries and commerce of the South may be properly stimulated, and those of all other portions of the United States may have the needed relief.

Cost of Paying the Pensions.

Cannon, of Illinois, in the House last Thursday showed that the amount necessary for the payment of pensions this fiscal year would be about \$100,000,000; next year about \$150,000,000; the following year, \$100,000,000; fourth year, \$75,000,000; and after that he thought the annual appropriation need not exceed \$50,000,000 for pensions. His analysis of the bill was very thorough and showed him to be perfectly familiar with all the necessities of the Government Departments.

California was yesterday assessed ten cents per share.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

We do not see any movement among the California Democrats looking to the nomination of General Stoneman, and yet the Democratic howl is to the effect that the Republican party has for years been engaged exclusively in the business of betraying this country into the hands of corporations. It will soon become evident to many dissatisfied Republicans that their own party is the one to stand with if the interests of the people are ever to be conserved. The Democracy never marches up to its pretensions. It wholly forgets even to agitate the name of General Stoneman for any office, although a few months ago he was deemed to be the coming man by the Democratic press. Let Republicans stand by their flag.—Carson Index.

A number of journals assert that it is about time for General Sherman to step down and out. When we no longer need him, we kick the horse that safely carried us across the flood. There be some who would not care if "Marching Through Georgia" were changed to "A Trump to the Poor House."—San. Bee.

Dr. Hutchins received a letter yesterday informing him of the death of his father, by drowning, at Canton, Maine, on the 31st of May. The Guard will receive their rifles this week, and as they have a shooting range will begin at once to practice. Salt Marsh Notes.

Our correspondent from Salt Marsh sends us the following news from the Northern country under date of June 9th:

Great preparations are being made at Bidwell to have the races a success.

J. E. Calderwood, who has been afflicted with rheumatism, is able to walk around again; he hopes to show his 9x9 countenance in Reno soon.

Large bands of crickets are marching for Surprise Valley, cleaning everything green as they go.

The black-leg is killing stock, at Duck Flat. Those falling by the disease are mostly young calves, belonging to L. Clark. He has lost ten or fifteen in the last week.

The farmers all through Surprise Valley are very jubilant over the prospects of the coming crops this season. There will be nearly double the hay cut this year than was cut last year.

G. D. Winters will start in a few days with his sheep for Blue Lake, his Summer range.

Teams are loading every day at Buffalo Salt Works for the Northern country. Laniger & Co. will commence in a few days to gather the first crop of salt.

Quite a shower of rain fell in Surprise Valley yesterday.

Richardson Bros. are busy shearing their Spring crop of wool at their ranch in Surprise Valley.

The crickets are about to eat everything on Wm. Coppersmith's ranch. He says if they do not eat his chickens he will be able to stand it until Spring.

For State Treasurer.

Increasing.

The office work in the U. S. Surveyor General's office has increased to such an extent that Gen. Davis has been forced to employ two additional draughtsmen, and to ask the Odd Fellows for another room. The character of the work now coming in so fast is designated "deposit" work.

They will remain in the Golden State for a few weeks, the former visiting his ranch in Sonoma county, and the latter taking a jaunt to Santa Cruz and Monterey. Their families have been in California the past month.

This is from the Eureka Sentinel:

The Reno JOURNAL says a whist contest is the latest proposition. Reno has a number of No. 1 players.
